Re: Sam Winer Property Site, 3530 East Waterloo Road, Springfield Township, Ohio

Dear Ms. Deppisch:

The United States Environmental Protection Agency (U.S. EPA) has completed a removal assessment of the Truck Stop portion of the Sam Winer Property Site. The enclosed report summarizes the groundwater investigation portion of the removal assessment. A full final report will be generated by Tetra Tech within the next several weeks and will be forwarded to you under a separate cover.

Based upon the results of the groundwater investigation, U.S. EPA has determined that the Truck Stop portion of the Sam Winer Motor's property does not meet removal criteria and, therefore, U.S. EPA, Superfund Division, Emergency Response Branch has no further action planned at this time.

If you have any questions or comments regarding this Site or U.S. EPA's no further action decision, please feel free to contact me at (440) 250-1741.

Sincerely,

Karla M. Auker
On-Scene Coordinator
